HOW LEXINGTON TRICKED BURLEY COMPANY.

(Dover News.)

Some years ago a committee of citizens of Lexington persuaded the Burley Tobacco Society to move its headquarters from Winchester to Lexington, promising it exemption from taxation. Now the order has been rescinded and the Society is asked to pay \$18,000 back taxes to the city. Thus Lexington got the plant under false pretenses, unless the gentlemen responsible for the move dig down in their pockets and make their word good.

BALL CLUB ASSURED

Maysville Is Now On the Right Road To Have "Organized Base Ball"—\$3,500 Stock Company the Solution.

When Maysville base ball enthusiasts "en-thuse" they nearly always put the ball over home plate, and they're now fixing to do it again.

Maysville fans are determined that we shall have a team worth having on the diamond this happy season of 1914, which all unite in declaring is going to be the greatest sport year in the history of the country.

Everybody get together and root. Root hard and all the time.

Here's the plan and it's a good one: Mr. John McElroy Cochran and others are now trying to form a new organization to take charge of the Maysville Baseball Club.

The new concern to be known as the "Maysville Baseball Company," and will be incorporated, with capital stock at \$3,500.

Mr. Cochran is now busily engaged in feeling the public pulse and will no doubt be able to give out something more definite in a few days.

It is Mr. Cochran's idea to issue stock at \$25 per share, each share counting as one vote in the election of directors, the directors to elect a President, whose duty it will be with the Board of Directors to select a Manager for the team and attend to all business of the organization.

The successful organization of this company will mean that professional base ball at Maysville is going to be a permanent thing.

There is a talk of going after McKernan to manage the Maysville Club.

WE CAN'T GET IT—YOU SHAN'T HAVE IT.

The fact that the Progressive party has determined to put out candidates for Congress throughout the Nation in 1914 shows that the party, as a party, is the implacable enemy of the Republican party. It is hardly possible for the Progressives to elect more than a score, and probably not more than a dozen Congressmen in the United States, in fact they do not expect to win, except in a small number of districts. Yet, they propose to have a candidate in each district. Why so? The answer is easy. By this method they make it possible for many Democrats to win, who otherwise would have no chance. Hence the main plank in this platform—"We can't get it—You shan't have it." The conduct of the Progressives in this respect is another demonstration of the truth of the oft-repeated statement, "one time friends, when estranged, make the most bitter enemies." In the August Primary, 1913, the progressives polled less than 10,000 votes in Kentucky out of a voting population of more than 450,000, and outside of the city of Louisville they did not make a decent showing. Notwithstanding this, the State organization of the party has determined to have a candidate in each of the 11 Congressional districts of the State, and also a candidate for United States Senator. They do not expect to win, and they do not expect to make a respectable showing outside of Louisville, but they do expect to make certain the defeat of as many Republicans as possible. We can hardly believe that the rank and file of the Progressive party, especially here in Laurel County, are in favor of this policy purely of revenge and retaliation, and they should not allow themselves to be used as a "cat's paw" by the leaders of that party merely to satiate their desire for revenge.

With the Republicans and Progressive united, we could elect a United States Senator from Kentucky. If the Progressives continue their policy of retaliation and helping the Democrats to defeat Republicans, what sort of race would Col. Roosevelt make for President on the Republican ticket in 1916? It is the belief of many that Roosevelt would not be averse to accepting the Republican nomination in 1916, upon a platform acceptable to both wings of the party, but if this is to be hoped for the Progressive party will have to change its attitude toward the Republicans, else by 1916 Roosevelt's name will be a poor shibboleth around which Republicans could rally.

As for the Eleventh district, the Republicans have nothing to fear. A Republican nomination here is equivalent to an election. In many counties of the district the Progressive party has no organization and practically no following at all, and none of any consequence in any county. In this district very few Republicans ever contemplated leaving the party, and most of those who did, have returned.—London (Ky.) Echo, Republican.

Four Astonishing Cases Brought to Light Today

Invalids For Years Said to Have Recovered Health and Helpless Rheumatics Arise and Walk in Manner That Seems Miraculous After Using Strange Liquid

Every State in the union, it seems, is vying with others in the contribution of reports of strange and remarkable results that are following the use of the new Root Juice treatment which for several months has startled many cities by its powerful curative influence and four of the most astonishing cases yet reported have been brought to light today from as many different States.

Could Not Walk.
Harrisonburg, Va.; Mrs. S. F. Laker, residing at 304 W. Washington street, this city, is rejoicing over the recovery of her daughter, Miss Haley who for sometime has been confined to her bed with an attack of rheumatism which seemed to threaten her life and which baffled the skill of several local physicians. In speaking of the case, Mrs. Laker said: "My daughter was confined to her bed. Her legs were drawn so crooked that she could not walk a step and her weight was down to seventy-five pounds. The doctors did not seem to benefit her much and when I heard of this new Root Juice treatment and what it was accomplishing all over the country, I procured a bottle and had her take it. She has now used four bottles and can walk almost as well as ever. She now weighs one hundred and ten."

Invalid for Ten Years.
Seymour, Ind.: Mrs. Amanda Wright wife of James Wright, a well-known citizen of this place, is up and about, again after having been an invalid for over ten years. Mr. Wright says his wife's strange and remarkable recovery is attributed to the use of the new Root Juice compound of which she has used several bottles. He states further that Mrs. Wright is gaining rapidly in strength and is now able to take care of her household duties.

Strange Case in Illinois.
Cantrall, Ill.: Mr. Albert Timlick, of this place, is telling of his recovery from an attack of indigestion which for a short time seemed to threaten his life and states that he owes his good health to a new treatment known as Root Juice, which has recently created a sensation in many parts of the country. In describing his experience, Mr. Timlick said: "I had been a sufferer

Houston brags on her "sun-kissed maids," but most of the other towns have sun-kissed ones.—Washington Herald.

The Ontario Historical Society recently purchased for \$600 the gun used by the famous Indian chief, Tecumseh. Everybody was happy over the acquisition of the treasure until it became known that another society had purchased Tecumseh's gun for \$150. Indignant inquiry only revealed the fact that Tecumseh had several guns. There is no doubt about that. If a Tecumseh gun will bring \$600, or anything like it, on the open market the descendants of the veterans of the old Indian wars will continue to find such weapons and to place them on the market until some one discovers that Tecumseh never had a gun, but contented himself with the use of a tomahawk.—Louisville Post.

TRUSTS AND QUALITY.

A cigar store trust is said to have absorbed a drug store trust. The next step may be a combination with the saloon, and complete control of sedatives, stimulants and excitants may be evolved. The trust system has been assailed on business grounds alone, the complaint being made that they sought by combination to increase prices. The charge is often false; but the allegation that they lower quality is, in our opinion, a much more serious matter. If there is any business where ethics should approach the professional requirements, it is in the sale of drugs.—Newark Sunday Call.

NEWSPAPER FAKING.

The Louisville Courier-Journal delivers a well-directed swat at some of the sensational, reckless and irresponsible correspondents in Eastern Kentucky. Whereupon the Owensboro Messenger rises to remark that a good many of the sensational stories are promptly "padded out" by Louisville newspaper men and passed on to other metropolitan papers. The Messenger gives an example in a lynching that took place in that section of the State a few years ago, asserting that the Louisville correspondents threw in a lot of details that did not rightfully belong to the story. The mountains have some of the worst fakers to be found anywhere, but they have no monopoly of them. There used to be a fellow down at Rockport who was almost equal to the Munchausens of the mountains, while Louisville and Lexington have put over some wild and woolly yarns for which there was not much provocation. That sort of work, however, is getting less common.—State Journal.

You failed to say a word about that live-wire cor. at Carlisle.

THE ECONOMIST.

"It isn't by petty and ridiculous economies that men succeed," said John D. Rockefeller, Jr., at a dinner in his wonderful skyscraper residence in New York.
"Some people seem to think that to get rich, one must economize like Blanco."
"Blanco's faithful old dog had turned sickly and savage, and so Blanco said to his wife on arriving home from business Saturday evening:
"I'll shoot Towser tomorrow morning before church."
"Blanco paused, then added sternly:
"So remember, please, that he won't need any breakfast."

A good billiard player is one who devotes his entire time to the game.

LEWIS COUNTY TO THE FRONT!
Brief mention was made a few days ago, of the fact that Mrs. Hendrick Means, of Lewis County, had been awarded a premium in a "Butter Contest" in Lexington. As particulars are learned, the case seems worthy of more detailed notice. The occasion was the Kentucky Dairy Show and J. R. Kearthley, U. S. Dairy Expert was present in the capacity of judge. Mrs. Means' butter was graded 95 and was awarded not only the first premium, but also the sweep-stakes premium. When the fact that among the contributors were many older and more experienced butter-makers is taken into consideration, and also that much of the butter exhibited was the product of fine stock, of Central Kentucky, where cream is supposed to be richer and better than anywhere else in the world, it is a distinct triumph, not only for Mrs. Means, but also for Lewis County as the cream used was from her own herd, pastured on the old Means home farm. Mrs. Means is a sister-in-law of W. H. Means of this city.

Was Thought to Have Cancer.
Zanesville, Ohio: The new Root Juice compound to which so many remarkable cures of stomach, liver and kidney disorders have recently been attributed, has now begun its good work in this city. Mrs. C. H. Davis, a well-known and popular matron of this place has reported a cure no less remarkable than the many others that have been brought to light from other cities. According to Mrs. Davis' statement, she was a victim of chronic stomach trouble for three years and treatment from her physicians gave her no relief. "Some thought I had cancer of the stomach," said Mrs. Davis, in speaking of her case, "but whatever it was, the new Root Juice compound has cured me and it took only four bottles. Now I eat anything my appetite craves and feel no evil effects from it."

Good Report Reported Here.
At J. J. Wood & Son's drug store where the Root Juice compound is sold here it is said that the sale of it has been enormous and that many of those who have used it have returned with glowing reports of benefits derived. It is certainly a wonderful treatment for indigestion, loss of appetite, pains, belching and distress after eating, headaches, sleeplessness, backaches, weakness and pain in small of the back, nervousness, lassitude, tired, half-sick and worn out feeling, bad blood, rheumatism, painful swelling of limbs and joints and in fact almost any disorder of the stomach, liver and kidneys. In many severe cases three or four bottles have produced the most startling results and when the cost is considered, it is surely buying good health at bargain prices.

How Bad Backs Have Been Made Strong—Kidney Pills Corrected.

All over Maysville you hear it. Doan's Kidney Pills are keeping up the good work. Maysville people are telling about it—telling of bad backs made sound again. You can believe the testimony of your own townspeople. They tell it for the benefit of you who are suffering. If your back aches, if you feel lame, sore and miserable, if the kidneys act too frequently, or passages are painful, scanty and off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Maysville citizen's advice and give Doan's a chance to do the same for you.
Henry Gallenstein, blacksmith, Poplar St., Maysville, Ky., says: "Doan's Kidney Pills are the best of kidney remedies. I have used different kinds and no other has ever equaled this one. When my kidneys were out of order and I had pain in my back, I heard of Doan's Kidney Pills and used them. They entirely stopped the pains and my kidneys became strong. The relief has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

FOR DELICATE CHILDREN

A Mother's Letter to Mothers.

Mrs. E. W. Cooper of Bloomfield, N. J., says: "My child, seven years old, had a bad cold and was weak and run down in health. She had been in this condition for about six weeks when I began giving her Vinol. It was a wonderful help to the child, breaking up her cold quickly and building up her strength beside. I have also found Vinol a most excellent tonic for keeping up the children's strength during a siege of whooping cough."
Vinol is a wonderful combination of two world-famed tonics—the medicinal body building elements of cod liver oil and iron for the blood, therefore it is a perfectly safe medicine for children, because it is not a patent medicine, everything in it is printed on every package, so mothers may know what they are giving their little ones.
Therefore we ask every mother of a weak, sickly or ailing child in this vicinity to try Vinol on our guarantee.

ADVISES REPUBLICANS

Not To Try For Jobs.—Langley Tells Constituents That Democrats Are Sure To Get Postmasterships.

Washington.—Representative John W. Langley has advised all of his Republican constituents who are now postmasters in fourth-class offices in Kentucky or who wish to secure such preferment, not to waste their time taking competitive examinations.

"Stay in until you are fired," is his motto, "and then work and pray for the return of the Republican party to power." But the Congressman points out that, while Republicans may pass competitive examinations, a Democrat will always pass them, too, and as long as a Democrat has a certificate of passage he will be selected under this administration.

THE PROGRESS OF THE Independent Warehouse!

Is evidenced by the fact that we are holding all our old customers and gaining many new ones. This is due to the manner in which we conduct their business for them. Our efforts are always in the interest of the seller and the average of \$19.17 made by George Wilson, Adams county, on 3,445 pounds, and the average of L. M. Morgan, Mason county, \$17.92, show that we get results. One basket reached \$25 and several went past \$20. The experience our force has had gives us the right to say "We Lead; Others Follow." Bring your tobacco and let us prove it to you.
